## Leading West Coast Industrial Contractor Opens New California Office

CORVALLIS, Ore. – One of the West Coast’s leading full service industrial general contractors and fabricators is expanding its presence into California. Greenberry Industrial, which provides mechanical, structural, and civil construction and fabrication services, announced today that it has opened a new office in Ontario, Calif., to better serve its growing client base in the state.

“A Southern California office gives our customers in the area better access to all our services,” said Greenberry Industrial President Jason Pond. “In addition, we expect a local presence to pave the way for new opportunities in the petrochemical, aerospace, energy, pulp and paper sectors. We plan to hire local employees to augment our existing resources.”

Greenberry’s new office, its fifth on the West Coast, is conveniently located near the Ontario airport and will support the entire Southern California basin. The address is 3200 Guasti Road, Suite 100, and the phone number is 909-456-8885.

### ***Strong West Coast Presence***

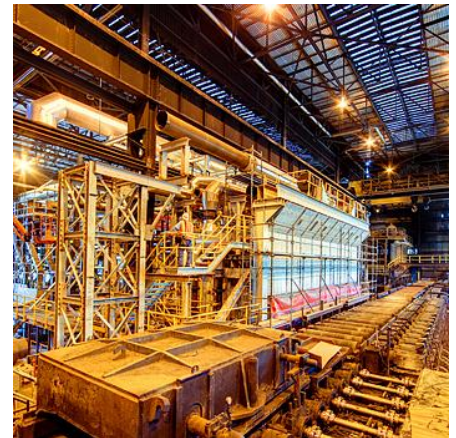

Based in Corvallis, Ore., Greenberry Industrial is no stranger to the California construction market, and has more than 25 years experience working throughout the state. The company recently installed a 3 million-lb. furnace at a local steel manufacturing facility that has greatly improved hourly production levels at the mill.

Greenberry routinely works in the petrochemical industry among others.

Greenberry Industrial is also known for its industry-leading safety record. To date, the company has completed more than 2 million consecutive work hours, or roughly five years, without a lost time accident.

In addition, as one of Oregon’s Top 150 private companies, Greenberry Industrial has been recognized for several high profile projects in its home state this past year.

The company captured two recent Top Project honors awarded by the *Daily Journal of Commerce* in the \$15.1 million to \$50 million private renovation category. Greenberry was singled out for its work with Ash Grove Cement Company’s new processing complex in
